### Footnotes:

1 The industry categorisation is based on the 'UK Standard Industrial Classification of Economic Activities 1992' (SIC92).

2 'Other' industry includes other community, social and personal service activities, private households with employed persons and extra territorial organisations and bodies.

3 'In employment' means all people aged 16 to 74 in employment whether a full-time student or not.

### Footnotes:

1 The terms used to describe tenure are defined as:

Owned: either owned outright, owned with a mortgage or loan, or paying part rent and part mortgage (shared ownership).

Other social rented includes rented from Registered Social Landlord, Housing Association, Housing Co-operative and Charitable Trust.

'Rented from the Council' refers to Rented from Council (local authority)/Scottish Homes in Scotland.

Private rented: renting from a private landlord or letting agency, employer of a household member, or relative or friend of a household member or other person.

2 'Living rent free' could include households that are living in accommodation other than private rented.

3 Car or van availability includes any company car or van if available for private use.

4 It is possible that form-fillers on housing benefit may have ticked 'living rent free' in response to the Census question on 'owns/rents'. Households recorded as living rent free are not analysed by type of landlord in this table. Users who wish to count these households by landlord and, possibly, make adjustments to this table can do so using tables UV91, UV92, T54 & T55.

### Footnotes:

1 NS-SeC stands for the National Statistics - Socio-economic Classification.

2 'Not classifiable for other reasons' includes people whose occupation has not been coded and those who cannot be allocated to an NS-SeC category.

3 In the NS-SeC classification, all full-time students are recorded in the 'full-time students' category regardless of if they are economically active or not.

4 For long-term unemployed year last worked is 1999 or earlier.

### Footnote:

1 The occupancy rating provides a measure of under-occupancy and overcrowding. For example a value of -1 implies that there is one room too few and that there is overcrowding in the household. The occupancy rating assumes that every household, including one person households, requires a minimum of two common rooms (excluding bathrooms).
