General Details

Dataset Title: In, out and net migration to and from Council areas by sex, 2001/02 to most recent
Time Period of Dataset: 2001-02 to latest
Geographic Coverage: Council areas
Supplier: General Register Office for Scotland (GROS)
Department: Demography Division, Population and Migration Statistics Branch

Methodology:

The migration estimates are those associated with the mid-year population estimates for 2001-latest.
See the methodology section of this website for more information on how population and migration estimates are produced.

Note: Scotland level figures cannot be derived by adding together the figures for individual councils. This is because council level figures include moves within Scotland.
Figures exclude the adjustment for unmeasured migration used in the 2001 to 2006 population estimates. Asylum seekers are also excluded.
