

In, out and net migration to and from NHS Board areas by sex, 2001/02 to most recent Tables

Contents

Metadata	Metadata associated with the migration estimates in these tables
Persons In	Estimated total migration into NHS Board areas, 2001/02 to most recent - Persons
Persons Out	Estimated total migration out of NHS Board areas, 2001/02 to most recent - Persons
Persons Net	Estimated total net migration for NHS Board areas, 2001/02 to most recent - Persons
Males In	Estimated total migration into NHS Board areas, 2001/02 to most recent - Males
Males Out	Estimated total migration out of NHS Board areas, 2001/02 to most recent - Males
Males Net	Estimated total net migration for NHS Board areas, 2001/02 to most recent - Males
Females In	Estimated total migration into NHS Board areas, 2001/02 to most recent - Females
Females Out	Estimated total migration out of NHS Board areas, 2001/02 to most recent - Females
Females Net	Estimated total net migration for NHS Board areas, 2001/02 to most recent - Females

Last updated: 8 July 2010

General Details

Dataset Title: In, out and net migration to and from NHS Board areas by sex, 2001/02 to most recent
Time Period of Dataset: 2001-02 to latest
Geographic Coverage: NHS Board areas
Supplier: General Register Office for Scotland (GROS)
Department: Demography Division, Population and Migration Statistics Branch

Methodology:

The migration estimates are those associated with the mid-year population estimates for 2001-latest.

They are taken from the National Health Service Central Register (NHSCR).

It is assumed that migrants don't re-register with a new GP immediately on moving and so the data is lagged to account for this. Currently, the data are lagged by 2 months for moves from England & Wales and Northern Ireland to Scotland, by 1 month for moves to England & Wales and by 3 months for all other moves.

Prior to Quarter 2 2009 data moves from Scotland to Northern Ireland were lagged by 6 months. Prior to Quarter 3 2008 moves from England & Wales and Northern Ireland to Scotland were lagged by 3 months.

From 1 April 2006 responsibility for NHS Argyll & Clyde was split between NHS Greater Glasgow (now known as Greater Glasgow and Clyde) and NHS Highland. The tables on this website generally show the old NHS board areas. This is because it is often not possible to create the same data for the new NHS board areas using the available data.

See the methodology section of this website for more information on how population and migration estimates are produced.

Note: Scotland level figures cannot be derived by adding together the figures for individual councils. This is because council level figures include moves within Scotland. Figures exclude the adjustment for unmeasured migration used in the 2001 to 2006 population estimates. Asylum seekers are also excluded.

Estimated migration flows for NHS Board Areas, 2001/02 to latest
